ABOUT ME

» Student in Computer And Communications Engineering.
» I consider myself an organized person and a team worker.
» Passion in Front-end, Machine Learning and Artificial Intelligence.

EDUCATION

- **Alexandria National University**   📅 2022 - 2027
  Computer And Communications Engineering   📍 Alexandria, Egypt
  ◦ Expected Graduation Date: 2027
  ◦ GPA: 3.27/4.00

SKILLS

- **SoftSkills:**
  » TeamWorker
  » Overachiever
  » Organized
  » HardWorker
- **Programming Languages:**
  » Python
  » Java
  » MySQL
  » C
  » Machine Learning
  » Deep Learning Fundamentals
  » Cyber Security Fundamentals
  » Linux
  » Matlab
  » Github

CERTIFICATIONS

- **Java SE: Programming 1**   📅 *August 2024*
- **Java SE: Programming 2**   📅 *September 2024*
- **My SQL Fundamentals**   📅 *November 2024*

EXPERIENCES

◦ **Internship at Alexandria Water Company**
  » Gained exposure to professional workflows and real-world engineering environment.
◦ **Machine Learning Course at Route**
  » Studied core Machine Learning concepts, data pre-processing
  » Building supervised and unsupervised models.
  » Evaluating performance and tuning hyperparameters.
◦ **Deep Learning Fundamentals**
  » Learned deep learning basics and implemented models using TensorFlow.

PROJECTS

- **Simple Java Banking System**
  » Developed a fully functional banking system in Java with a Swing GUI
  » allowing users to create accounts, perform transactions, and view balances.
- **Twitter Tweet Analyzer**
  » Built a Twitter data analyzer using Machine Learning and Deep Learning techniques to classify sentiment, extract insights, and visualize trends.

ADDITIONAL INFORMATION

Languages:
» Arabic (Native)
» English (Advanced)

Interests:
» FrontEnd
» Backend
» Machine Learning
» Artificial Intelligence
» Cyber Security
» Penetration testing
» BugBounty
